

Urgent Meeting On Rails

Work Rules Bargaining Session Open

WASHINGTON (AP) — The railroads and five operating unions resumed bargaining today in their long fight over work rules.

They met at the urgent request of President Kennedy.

Negotiators for both sides withheld comment as they started their closed meeting, saying they would wait until after the early sessions.

If no agreement is reached before June 12, only new legislation providing for either compulsory arbitration or government seizure of the railroads can block a nationwide rail strike.

A three-man emergency board provided the basis for new negotiations in a report to the President last week.

Kennedy, in making the report public, said:

"There is no time to be lost for completing their agreement in this critical dispute . . . the ultimate dependence must be upon their own efforts."

The key issue in the battle over what the railroads call "featherbedding" is the fate of 40,000 firemen on freight and yard trains.

Six Killed In Accidents On Weekend

By THE ASSOCIATED PRESS

Six persons were killed in traffic accidents in Missouri during the weekend.

Arthur Eugene Blaine, 17, of Independence, was killed Sunday when the car he was driving skidded off a rain-slick curve and struck an embankment near Independence. Four other teenagers were uninjured.

Ronnie Mason, 17, St. Louis, died Sunday of injuries received when his car hit a fence in St. Louis County. Two passengers were injured, one seriously.

Two Kansas City children were killed Saturday night in a head-on collision of two cars on U.S. 71 bypass seven miles north of Harrisonville.

They were Dana Marie Ford, 2, and Kenneth Ford, 1, children of Mr. and Mrs. Kenneth Ford. The parents and the other driver, James R. Hills, 46, of Clinton, Mo., were injured.

Two airmen from the Whiteman Air Force Base were in a car that overturned Saturday near Warrensburg. Claire Allen Seigford, 28, from Coatesville, Pa., was killed. Paul David Houppert, 21, was injured.

Lemon Vallion, 53, Kansas City, Kan., was killed Saturday when his car crashed into a utility pole as he turned to speak to a passenger in the back seat. Four other persons were injured, none seriously.

IN THE LINE OF DUTY — After successfully dismantling two bombs placed in Montreal mailboxes, Canadian army bomb expert Sgt. Maj. Walter Leja reached for a third (top left). The bomb exploded while he worked on it (top right), throwing him back on the pavement and ripping off his right arm. As the smoke cleared, a man rushed to his aid (bottom left). Policemen and other officials found Leja still alive, but very seriously injured. (NEA Telephoto)

On South Highway 65

Rash of Minor Auto Accidents

Five accidents occurred Sunday on U. S. Highway 65 between Sedalia and Windsor Junction starting at 3:15 o'clock Sunday afternoon until 6:15 o'clock. Occupants received minor bruises, but none accepted medical treatment at the Bothwell Hospital.

Troop A headquarters of the State Highway Patrol, Lee's Summit, reported shortly after midnight Sunday there were 45 accidents reported to that office Sunday. It was explained of the 45, four were in Pettis County, two in Benton County, six in Henry County, Jackson County, eight, and other counties in the Troop area accounted for the others. Twenty-six were of rear end collisions.

It was pointed out that six of the eight accidents in Jackson County all occurred on Highway 50, and was considered to be a "lake traffic."

Wheat Vote On Controls Set Tuesday

CHICAGO (AP) — The nation's estimated 1,800,000 wheat farmers will vote Tuesday on whether they want tighter wheat controls to curb production.

This is the 12th referendum since 1941, when the first such vote was taken.

But it is the first time that farmers who grow wheat on 15 acres or less will vote. Heretofore, the voting was restricted to growers of wheat on more than 15 acres.

If two-thirds of the voters approve the new controls, they will go into effect next year. If the program is rejected acreage allotments will continue and price supports will be available at about one-half of parity, or around \$1.25 a bushel. There will be no marketing quotas or cash penalties for excess production.

"lake traffic," Johnson County's report included more than 10 accidents on Highway 50. Pettis County's report did not have any on Highway 50 but three were on South Highway 65 and considered "lake traffic," the others not.

Fortunately all accidents where injuries were reported were classified as minor injuries and no fatalities were reported Sunday. Twenty-four of the 45 were listed with minor injuries.

The first accident in the Sedalia area was at 3:15 three and a half miles south of Sedalia involving two automobiles.

A long line of traffic was moving north and when it slowed one car struck another in the rear. The first car was a 1958 Ford coach driven by Jack Edward Rayl, 18, Sedalia Star Route, and the second a 1955 Buick coach driven by R. Clyde Shipley, 22, of Cole Camp.

Extensive damage resulted to the front end of the Buick car while the trunk lid and bumper were damaged on the Ford.

Trooper Pete Stohr, of the State Highway Patrol, investigated the accident and had just cleared the highway of the cars and another accident occurred.

This accident was at 3:35 p.m. and involved three automobiles and a motor boat. One automobile, however, was not struck or damaged, it being an object over which the boat went "flying."

Again it was a case where the heavy traffic had slowed down and brakes began to be applied to automobiles in the line. A 1960 Chevrolet coach driven by Mrs. Ovalee Ann Frazier, 29, Waverly, Mo., slowed for a car in front of her, a second car, a 1962 Chevrolet coach driven by Frank Stock, 60, of Kansas City, Mo., was behind Mrs. Frazier, and a third car a 1961 Corvair driven by Marvin Kenneth Baker, was pulling a boat trailer.

Baker applied his brakes and

The Weather

Increasing cloudiness with little temperature change to night with a few showers by morning. Low tonight 40 to 45. Cloudy and cooler Tuesday with intermittent rain ending by evening. High Tuesday in 60s.

The temperature Monday was 51 at 7 a.m., and 67 at 1 p.m. Low Sunday night was 45, with .36 inches of rainfall.

The temperature one year ago today was high 89; low 61; two years ago, high 70; low 57; three years ago, high 84; low 61.

Lake of Ozark stage: not available today.

Give Way to US Demands

Common Market Tariff Cut Okay

GENEVA (AP) — The European Common Market countries agreed today to American demands for across-the-board tariff cuts. This apparent reversal of position was aimed at ending the deadlock between the world's two greatest trading blocs.

But at the same time the six European countries demanded that in return the United States agree to an automatic formula for adjusting gaps between high American tariffs and lower European ones.

West German Economics Minister Ludwig Erhard claimed credit for the new proposal, which he said he thought would end the deadlock with the United States.

French Finance Minister Valery Giscard d'Estaing said "It's for the Americans to say."

The full session of the 73-nation General Agreement on Tariffs and Trades conference marked time while the Common Market and the Americans jockeyed for position.

Chairman Hans Schaffner of Switzerland called off an afternoon meeting but agreed to preside at a special evening session of the disputing sides.

Crux of the situation is that

Boyle Elected President Of City Symphony

Sam E. Boyle, 601 South Beacon, executive manager of the Chamber of Commerce, was elected president of the Sedalia Symphony Orchestra at a meeting held Sunday evening at the Chamber of Commerce.

Other officers elected were: Mrs. A. F. Scott, vice-president; Mrs. John Herring, secretary; Arthur J. Morgan, treasurer; and directors elected for a term of three years, Mrs. Carl Urban, Mrs. Louis H. Tempel, Jr., Carl Schrader, Harold Silberstein, Harry W. Walsh and Robert S. Gardner.

Directors remaining on the board this year are: Sam Boyle, Mrs. Herring, Mrs. Jack Cunningham, Mrs. D. R. Edwards, Mrs. Al Miles, Mrs. A. F. Scott, Louis Hughes, Vernon Bingham, Mrs. Philip McLaughlin and Mrs. Allen Cavaniss.

Supreme Court Overturns Five Sit-In Convictions

Declares Segregation As Unconstitutional

WASHINGTON (AP) — The Supreme Court threw out today the convictions of lunch counter sit-in demonstrators in four Southern states, and declared it unconstitutional for a state to require segregation and use its power to enforce it.

The pronouncement in an opinion by Chief Justice Warren means this:

No Negro can be convicted of trespass for seeking service in a "white only" restaurant if the state has a law requiring segregation in public eating places. The same principle would appear to apply to other businesses.

And, in a case from Louisiana, the court threw out criminal mis-

BIRMINGHAM, Ala. (AP) — The Board of Education ordered today the expulsion or suspension of 1,081 Negro pupils arrested in antisegregation demonstrations. A Negro leader immediately threatened a mass school boycott.

chief convictions of sit-in demonstrators even though there was no law or ordinance requiring segregation.

Warren said that in this case, coming from New Orleans, city officials had said they were determined not to permit Negroes to seek segregated service. Consequently, he said, "The city must be treated exactly as if it had an ordinance prohibiting such conduct."

Where does this leave the restaurant operator who chooses on his own to limit his customers to individuals of a particular race? Justice Harlan, in an opinion (Please turn to Page 4, Col. 7)

No Immunity For Stock Exchange

Supreme Court Antitrust Law Ruling Is Made

WASHINGTON (AP) — The Supreme Court ruled today that the Securities Exchange Act does not give the New York Stock Exchange immunity from antitrust laws.

Justice Goldberg, delivering the court's majority opinion, said "the antitrust laws are peculiarly appropriate as a check upon anti-competitive acts of exchanges which conflict with their duty to keep their operations and those of their members honest and viable."

At the same time, Goldberg said it was clear that there must be some method of telling a protesting nonmember of the exchange "why a rule is being invoked and allowing him to reply in explanation of his position."

Justice Stewart dissented with an opinion in which Justice Harlan joined, making the court's vote 7-2.

Stewart said the court's answer to the problem "is both unsatisfactory and incomplete."

Stewart protested that he thought the court erred in using the antitrust laws "to serve ends that they were never intended to serve—to enforce the court's concept of fair procedures under a totally unrelated statute."

Stewart and Harlan said they thought the Securities Exchange Act removed antitrust liability for "any action taken in good faith to effectuate an exchange's statutory duty of self-regulation."

The decision applied specifically to a suit by Municipal Securities Co. and Municipal Securities Co. Inc., engaged in securities business in Dallas, Tex.

Soviets Reported Quitting Support For the Pathet Lao

VIENTIANE, Laos (AP) — Soviet Embassy sources said today the Soviet Union is withdrawing the Soviet pilots and mechanics who have been helping to fly the Soviet-supplied transport planes belonging to the pro-Communist Pathet Lao faction.

The sources said Moscow took this decision when the present crisis between neutralist and Pathet Lao troops erupted in the Plain des Jarres six weeks ago.

"If we continue to help only one faction, we may be accused of interfering in Laos' internal affairs," the Soviets said.

The last group of 18 pilots and mechanics—out of an original 79—is scheduled to leave for home in the next two or three days.

1st Drawing Tuesday For Vacation Trip

The first drawings for the "Fun in the Sun Vacation Days" sponsored by the retail merchants of the Sedalia Chamber of Commerce will be held at the Chamber office at about 4 p.m. Tuesday, for those who have registered at the participating stores on Monday.

The top prize will be a free vacation trip at a resort on the Clear-Water Gravois Arm Area of the Lake of the Ozarks, for one week for a family of four with groceries donated by grocers and a car or station wagon furnished for the trip by Sedalia new car dealers. There will be many other gifts in merchandise given by local stores, also, the drawings to take place at the same time Tuesday.

The second drawing will be at 4 p.m. Thursday, and this will have as the top prize another week of vacation for a family of four, with groceries and car to be used for the trip. Drawings will be made for other merchandise offered by the local merchants at this time, also.

The last drawing will be at 10 a.m. Monday, May 27, at the chamber with Miss Sedalia, Judy English, on hand to draw for the last vacation trip for four, with the supply of groceries for a family of four and the use of a car for the trip. Drawings will then be held for the remaining gifts.

Martin Goodrich is director of the Retail Merchants Division (Please Turn to Page 4 Column 7)

'63 Program Takes Shape

Big State Fair Plans Revealed

The 1963 Missouri State Fair that will be held in Sedalia Aug. 17 through 25 will provide Fair patrons with the largest livestock, agricultural, educational and entertainment program ever presented in a single year.

Livestock exhibits of mules, horses, beef and dairy cattle, swine, sheep, goats, poultry and rabbits have been on the increase for the past two years. With constant improvement of facilities and conditions for both the exhibitors and their livestock the Missouri State Fair has become one of the outstanding livestock shows in the middle west.

Other free exhibits that hold hours of pleasant entertainment include the Home Economics, Fine Arts, Hobbies, Philately, Music, Floriculture displays and demonstrations, Agriculture, Horticulture, 4-H and F.F.A. displays, and hundreds of commercial displays. The 1963 free entertainment program finds the popular Homemaker's Work Shop moved to the first floor of the Woman's Building.

Other high lights of the big free entertainment program are the Horseshoe Pitching Contest, Archery demonstration and Contest, Bait Casting demonstration and Contest, State Fire Fighters display and demonstration, Austin Wood and Country Music Band at the Machinery grounds, the F.F.A. Barnyard, landscaped Highway Gardens and Conservation Commission exhibit.

The "Golden Knights," a United States Army Parachute Team will stage one demonstration each day

Gas Price Method Plan Is Upheld By US Supreme Court

WASHINGTON (AP) — The Supreme Court upheld today a Federal Power Commission plan to use a new area price method for determining allowable producer prices for natural gas.

Under the plan, FPC would set a guide price for all gas produced in a particular field. Adjustments would be made if evidence showed the price was unfair to consumers or to producers.

Justice Harlan delivered the 5-4 decision. Justice Clark dissented with an opinion in which Chief Justice Warren and Justices Black and Brennan joined.

Under the old method, FPC studied each application to see if the price proposed would give the individual producer a fair rate of return on his investment. This unit-by-unit method resulted in a big backlog of undecided rate cases.

Commission adoption of the new area price method was announced in a case affecting Phillips Petroleum Co., of Bartlesville, Okla., major seller of natural gas.

The new method was approved by the U.S. Court of Appeals here in an opinion stating there was nothing in the Natural Gas Act to prohibit a trial of the plan. The Court of Appeals decision was appealed to the high tribunal by Wisconsin, California and New York public utilities commissions.

Coffin for 27

MIGRANT FARM WORKERS DIE IN BUS PLUNGE—A bus that was transporting migrant farm workers is pulled from a canal near Belleglade, Fla., May 18. Twenty-seven were

drowned when the bus plunged into the canal. Many of the victims were children who were with their parents in the fields. (AP Wirephoto)

END OF THE CHASE—Richard J. Hubbard, 24, hangs from spike on a telephone pole while his car burns below him in Seattle, Wash., May 17. State Trooper Fred Schenk said he pursued Hubbard at high speed after Hubbard

failed to stop at scene of a minor accident. Hubbard's car struck an embankment, rolled over and crashed into the pole throwing Hubbard out. He died a short time later in hospital. (AP Wirephoto)

Ann Landers Answers Your Problems

Dear Ann Landers: Are you out of your mind? What do you mean by calling that woman "sick" because she resents it when women friends kiss her husband hello and goodbye?

I don't care if it is only a peck on the cheek. They always start that way and before you know it

there's a full-blown smooching scene going on right under your nose. I've got the same problem with my old elk so I know what I'm talking about.

There's no such thing as a platonic kiss between members of the opposite sex, so don't fall for THAT one.

Several months ago I got fed up with the monkey - shines of a blonde who enjoyed kissing my husband - not only hello and goodbye, but a few times during the evening as well. I gave him strict orders to keep his pipe in his mouth while the blonde was present, but it didn't help. She pulled the pipe right out of his mouth and kissed him anyway.

We wives have enough trouble with our middle - aged Romeos without having the rug pulled out from under us by nit-wits like you. Why don't you write a cooking column? — FURIOUS

Dear Furious: In a way I DO write a cooking column. Every day I deal with spring chickens, old roosters, cold tomatoes, hot potatoes, sour grapes, spilled milk, assorted nuts and now and then I even cook a goose.

Dear Ann Landers: Your abrupt reply to the girl who signed herself "Dateless" was most unsympathetic. She was miserable because she was built like an ironing board and then you come along and tell her she probably has a flat personality TOO!

I know how this unfortunate girl feels because I am also built like an ironing board. I was lucky enough to marry a wonderful guy who loves me anyway. But how I yearn to feel and look like a woman! It's horribly depressing to have been cheated this way!

I'll admit a flat chest is nothing to kill yourself over but it would be pure bliss if I could even fill a 32 bra. — IRONING BOARD NO. 2

Dear No. 2: Welcome back from the La Brea tar pits. I've said it

CANDIDATES—Two Sedalia area youths are candidates for graduation at Wentworth Military Academy's 83rd annual commencement exercises June 2. Maj. Robert Helper, acting dean, has announced. The youths who are members of the high school graduating class are: Cadet Alan Robert Townsend, (left) son of Capt. and Mrs. Alan R. Townsend, 114 West March Drive, Whiteman Air Force Base; and Cadet Waldo Charles Franklin Potter, son of Lt. Col. and Mrs. W. F. Potter, 727 Westover Circle, Whiteman. Wentworth's commencement exercises start on May 31, with a varied activity program that includes military exercises, a band concert, commencement ball, and the baccalaureate program. Commencement exercises at Wentworth come to a close on Sunday, June 2, after all graduates participate in the traditional flag ceremony on the academy's quadrangle.

no less than twenty times but I'll say it once more:

If curves are so important, why settle for 32? Go to a lingerie store and treat yourself to a 36. Many women wear padded bras because their clothes fit better.

Dear Ann Landers: This problem is a touchy one but we need your help desperately.

Our five-year-old son has a serious heart condition. The doctor has told us the boy must rest a great deal. He is able to attend public school, but he cannot indulge in sports. Walking more

than a few blocks violates doctor's orders so my husband carries him whenever we go out.

This past year several people who are unaware of the problem have made thoughtless remarks such as, "You're too big to let your daddy carry you," or "Big boys walk, their daddys don't carry them."

We don't want to make too much of the child's heart condition in his presence, because it may give him an inferiority complex, so my husband and I do not reply when people make remarks. Now the boy refuses to go out with us be-

cause he is afraid of being teased about being carried. He is becoming withdrawn and uncommunicative. What can we do? — TROUBLED PARENTS

Dear Parents: The child knows he has a heart condition so please stop playing games and pretending he is just like every other little boy.

Buy him a wheel chair and help him adjust to his handicap. An emotional cripple has it rougher than a physical cripple.

Confidential to OUTSIDER: Yes, there really is an Ann Landers, but she can't print every letter. Don't you have a name, an address, and a 5 cent stamp? c 1963, Field Enterprises, Inc.

Mrs. Gross Has Tea For Mensen Circle

Tuesday, May 14, the Mensen Circle of First Methodist Church met at the home of Mrs. John Gross, 1000 West Sixth at 12:30 p.m. for a tea. Mrs. Marvin Blaine and Mrs. Gerald Cecil were assistant hostesses.

There were 17 members present and four guests. Mrs. Roy Strubling, Mrs. Roy Souders, Mrs. Harry Wahrenbrock and Mrs. Larry Perry.

Mrs. C. F. Gault gave a short program.

Mrs. Gross, devotion chairman, had each member reveal her secret prayer pal by giving her a friendship begonia.

Mrs. Lester thanked the circle for her life membership pin in WSCS.

Junior Garden Club Holds Monthly Meeting

The Sedalia Junior Garden Club met Wednesday, May 15, at the Sedalia Public Library, and it was announced that the girls will set out petunia plants in the planter at Bothwell Memorial Hospital near the entrance of the Crippled Children's Center for their May therapy project as they did last year.

The meeting was presided over by Sandra Kreisel, president, and opened with the club pledge and conservation pledge given in unison.

Sedalia Garden Club No. 2 was the sponsor for the day with Mrs. Cecil Owen and Mrs. John Ryan presenting the program on "Flower Show Demonstration as on Flower Show Schedule." The Sedalia Junior Garden Club Flower Show will be held in connection with the Sedalia Garden Clubs Show on June 21, at the floriculture building, Missouri State fairgrounds. After the distribution of the schedules the different age groups were divided and demonstrations of different classes in the artistic division were made

and presented to the library.

Mrs. P. L. Strole, general chairman of the Junior Garden Club, gave a talk on her recent trip to Florida and told of the many beautiful tropical flowers that grow there.

Mrs. Owen and Mrs. Ryan presented each member with individual sacks of mixed candies.

The meeting closed with the singing of America the Beautiful.

Smith-Cotton Notes

Proficiency Certificates To Smith-Cotton Students

A number of Smith-Cotton students recently received National Office Management Association Arithmetic Proficiency Certificates, Miss Beulah Harris, director of S-C's mathematics department, announced today.

The purpose of the NOMA arithmetic program is to encourage students to develop skill and accuracy in arithmetic computations that they will frequently use in their life regardless of the business they may enter. Emphasis is placed upon the use of knowledge and skill in arithmetic. However, many of the problems are stated in terms of simple application to business situations since the ability to use arithmetic in practical situations is important. The problems are the type that should be understood by students regardless of whether they have had any training in business.

Students review for a week or ten days and test No. 1 is given. Then, after approximately 30 days, students review again for a week or ten days and test No. 2 is given. Students who have 100 per cent on either test are awarded the NOMA Arithmetic Certificate, and those making 100 per cent on both tests are awarded the NOMA Arithmetic Proficiency Certificate.

The following S-C students made perfect scores on both NOMA arithmetic tests: Rick Belt, Ann Brewer, Diane Dugan, Jerry Faulkner, Janice Goodnight, John Hillme, Ruth Moore, Susan Renfro, Joyce Reynolds, Rodney Robertson, Virginia Stumpf, Barry Wallace, Linda Webb, Barbara Wise, Steve Young.

The following S-C students made perfect scores on one NOMA arithmetic test: Skip Bottcher, Lyle Brown, Mita Bullette, Judy Christian, Phyllis Collins, Kenny Davidson, Susan de Latour, Marsha Eding, Sharon Edwards, Bill Erling, Carl Espelin, Tim Fine, Judith Hall, Linda Hancock, Linda Heckart, Barbara Hiatt, Ina Ireland, Rita Jenkins, Lynda Ken-

nedy, Jim Lamy, Lou Ann Lange, Pam Langus, Susan Longan, Bill Bob Long.

Future Homemakers

The Future Homemakers of America held their annual mother-daughter tea recently in the new hospitality room at Smith-Cotton. Linda Gray welcomed the mothers and Mary Van Dyne read a poem entitled "Mother." Each girl introduced her mother and then the ritual was read by all the girls. An emblem ceremony was presented to show the different purposes and meanings and the individual parts of the emblem.

The new officers for the '63-'64 school year were installed and they are as follows: president, Kay Carier; vice-president, Sherry Rogers; secretary, Marty Bossee; treasurer, Donna Painter; reporter, Sue Glenn; parliamentarian, Karen Miller; project chairman, Janice Steele; historian, Shirley Klein; song leader, Anita Monneyhan, and advertising manager, Joy Ream.

Judy Lutjen narrated a very interesting "Spring Fashion." The girls from the family relations class participated and showed the persons present that "new look of spring."

Gifts were presented to Mrs. Louise McKee, who is retiring, Miss Cora Stegner, who will be teaching elsewhere next year, and to Linda Gray, outgoing president. The mothers and daughters then adjourned to the hospitality room where a lovely tea was held.

Kroger Profit Plan Nets a 97% Return

Kroger employees received 97 cents in profit sharing credits for each \$1 they saved under the company's Employees' Savings and Profit Sharing plan during 1962, it was announced today by W. W. Oliver, Vice President of the Kansas City Kroger division. Kroger contributed \$3,460,913 to the fund from the company profits for 1962, Mr. Oliver said.

A total of approximately \$192,800 is shared by the 398 Kroger employees in the Kansas City division area who are members. The plan, which is now 11½ years old, is part of the overall Kroger Employees' Profit Sharing and Retirement Income program.

William L. Noel (Sedalia)

William L. (Bill) Noel, 35, 1105 West Third, died at 8:30 a.m. Sunday at the Veterans Hospital in Kansas City following a long illness.

He was a son of the late James E. and Tessie Barb Noel of Cole Camp. Born Sept. 30, 1927, in Macedonia, Ia., he lived there until 1942 when his parents moved to Sedalia. He was a graduate of Smith-Cotton High School and was a World War II veteran. Mr. Noel was a member of the Disabled Veterans (DAV).

He was married Feb. 4, 1950, to Julia Mae Meyer of Cole Camp, who survives of the home.

Also surviving are four children, Deborah, Jennifer, Steven and Terry, all of the home; five brothers, Everett Noel, Cole Camp; Lawrence Noel, Macedonia, Ia.; Fines Noel, 800 East 12th; James Noel, 800 East 12th; Cecil Noel, Council Bluffs, Ia.; five sisters, Mrs. Cecil (Dollie) Sell, Decatur, Ill.; Mrs. L. G. (Maxine) Swearingin, Route 2, Mrs. D. O. (Virginia) Van Winkle, 1807 South Carr; Mrs. Duane (Sharon) McMullen, 1617 West Third; Mrs. Forest (Gayle) Jones, Savannah, Ga.; and a number of nieces and nephews.

Private services for the immediate family will be at 7:30 p.m. tonight at the Fox Funeral Chapel in Cole Camp with the Rev. J. W. Boehne officiating. Funeral services will be at 1:30 p.m. Tuesday at the Trinity Lutheran Church in Cole Camp with the Rev. William Hepting of Emma officiating. Military rites will be conducted by American Legion Post 305 of Cole Camp.

Pallbearers will be Leonard Tucker, Eugene Viets, Herbert Levan, Ellis Moore, Alfred Hall and Wallace Brodehoft.

Burial will be in Cole Camp Memorial Cemetery. The body is at the Fox Funeral Home, Cole Camp.

Mrs. Ella Keefe (Warsaw)

Mrs. Ella O. Keefe, 92, Warsaw, widow of Harry Keefe, died at her home early Monday morning after an illness of a year.

She was born in Olathe, Kan., July 30, 1871, daughter of Mary Ellen Neal and W. O. Oehlprey. She was married to Harry Keefe in early womanhood. They lived on a farm near Olathe until his retirement in 1933, when they moved to Kansas City. Mrs. Keefe died in 1945 and Mrs. Keefe moved to Warsaw, where she spent the remainder of her life.

Mrs. Keefe was a member of Warsaw Methodist Church.

Surviving are one daughter, Mrs. Kathryn Marts, Hutchinson, Kan.; one son, Kenneth Keefe, Warsaw; one granddaughter, Mrs. Mary Jane Mollett, Hutchinson, Kan.; and four great grandchildren.

Funeral services will be at 10 a.m. Wednesday at Reser Funeral Chapel, Warsaw. The Rev. Lloyd McKemey, Warsaw Methodist minister, will officiate.

Graveside services will be at 3 p.m. Wednesday at Olathe Cemetery.

Russell O. Weathers (Bartlesville, Okla.)

Russell O. Weathers, 69, a Bartlesville, Okla., building contractor, formerly of Sedalia and LaMonte, died suddenly Sunday at Bartlesville. Death was due to a heart attack.

Born Feb. 24, 1894, on a farm five miles northeast of LaMonte, he was a son of the late Young Goodwin and Leah Rosella Weathers. He was educated in the LaMonte public school and Central Business College, Sedalia. During World War I he served in the Army and was in the battle of Meuse-Argonne.

Dec. 11, 1921, he was married to Miss Edith Casey of Iowa. They had resided in Oklahoma since 1925, first at Pawhuska and later at Bartlesville. Mr. Weathers was a member of the Christian Church.

Surviving are his wife, Edith, of the home; a daughter, Inalea, also of the home; a son, Winston Weathers, Tulsa, Okla.; three sisters, Mrs. J. B. Marshall and Mrs. Claude Crole, LaMonte.

Mrs. Robert F. Boothe, Quincy Apartments; two brothers, M. D. Weathers, Weathers Kort; Victor Y. Weathers, South Gate, Calif.; and several nieces and nephews.

Funeral services will be Tuesday at the Keely-Nickamp Funeral Home in Bartlesville.

The body is scheduled to arrive here at the McLaughlin Chapel Tuesday afternoon.

Graveside services and burial will be at 2 p.m. Wednesday in Memorial Park Cemetery here.

Katherine Bergman (Pilot Grove)

Mrs. Katherine Bergman, Pilot Grove, 92, died Sunday afternoon at the Rest Haven Rest Home in Sedalia.

She was born Nov. 11, 1870, daughter of the late Catherine Schupp and Adam Dueschle, near Pleasant Green.

She was married to Phillip J. Bergman Nov. 9, 1898, at the home of her parents. The couple lived on a farm near Pleasant Green until 1928, when they moved to Pilot Grove. The family resided in Pilot Grove until Mrs. Bergman entered the rest home about 4½ months ago.

Mrs. Bergman was a lifetime member of the United Church of Christ, Clear Creek, and a member of the Women's Guild of that church.

Survivors include a daughter, Mrs. Reinhart Schupp, Lincoln; two sons, Carl S. Bergman, Pilot Grove; Phillip A. Bergman, 408 Dal-Whi-Mo, Sedalia; 17 grandchildren and 46 great-grandchildren.

Funeral services will be at 2 p.m. Tuesday at the United Church of Christ, Clear Creek, with the Rev. J. E. Bierbaum officiating.

Burial will be in St. Paul's Cemetery. The body will lie in state at the Hayes-Painter Funeral Home in Pilot Grove until time to be taken to the church for the service.

Pallbearers for the services will be Harold Bergman, Earl Bergman, Clarence Bergman, Kenneth Bergman, Hilard Schupp and Alvin Schupp.

L. Stanley Demand (Oklahoma City)

L. Stanley Demand, Oklahoma City, Okla., brother of C. D. Demand, Sedalia, and L. A. Demand of Cole Camp, died May 16 in a hospital in Oklahoma City.

He was associated with his brother in Demand's Shoe Store in 1918. Until his retirement a few years ago, he was instructor of mathematics in Central High School in Oklahoma City.

Besides the two brothers, he is survived by his wife, five children, three sisters and eight grandchildren.

Funeral services were held in Oklahoma City Monday.

Funeral Services

Janie M. Herndon

Funeral services for Mrs. Janie M. Herndon, 60, Buena Vista Rest Home, who died Saturday, were at the Ewing Funeral Home at 10 a.m. Monday. The Rev. Carl E. Rea, pastor of the Bible Baptist Church, officiated.

Mrs. Bert Rossman, 903 West Seventh, reported Monday morning that a basket of clothes was taken Sunday while she was at the laundromat in the Brine building, 1716 West Ninth.

Town to Pay Last Tribute to Davis

ELMIRA, N.Y. (AP) — The body of Ernie Davis will lie in state Tuesday as Elmira's tribute to the athlete who got his start here and went on to become the nation's finest collegiate football player of 1961.

Davis, 23, died Saturday of leukemia.

Funeral services will be held Wednesday at 2 p.m. in the monumental Baptist church.

The Rev. William A. Morgan, pastor of the Bethlehem Baptist Church, officiated.

Clyde Waters sang "The Lily of the Valley" and "The Beautiful Garden of Prayer," accompanied by Mrs. Clyde Waters at the organ.

Burial was in Mt. Pleasant Cemetery.

Inspiration For Graduates At Services

A rainy afternoon did not dampen the inspiration given to Smith-Cotton senior candidates for graduation by Rev. Garner S. Odell at the Baccalaureate Service Sunday in the S-C auditorium.

Dressed in gray caps and gowns, the seniors came down from the balcony stairways onto the stage and into the auditorium during the processional "Cornelius Festival March." This was played by the S-C orchestra under the direction of Robert Cummings.

Rev. Roger Fjeld of the Christ Lutheran Church read words of scripture from the First Psalm. The mixed chorus, under the direction of Mrs. Carl Schrader, were followed by a prayer given by Rev. George Sparling of the Wesley Methodist Church.

Following the "Choral response" to the prayer, Rev. Odell of the Broadway Presbyterian Church, talked to the seniors for about 30 minutes. His topic was "Three Great Choices."

He emphasized that high school seniors have many important decisions immediately before them, but the three most important are selection of a vocation, selection of a mate, and the choice of whether to accept God as a guide throughout life.

"A number of criteria are used for choosing a vocation," he said, "among them being the need to make money, the need to satisfy one's goals and desires, and the need to render a service to mankind. Money, when made, should be made honestly, spent wisely, and given liberally. The love of money in itself can lead to tragedy." In regard to the choice of a mate, he indicated that there is a great need for more stability in American family life. "We need even more emphasis than we have already in our educational institutions on training young people about the problems of married life. One divorce for every four marriages is too many," he said.

In regard to the third great decision, that of a choice of a theology, he stated that when one knows what he believes, then he knows what he wants to do. A belief in a Supreme Being gives hope and gives man a purpose for being here on earth.

Miss Kay Rotermund then sang "All in the April Evening," accompanied by Miss Sandra Moberg. The benediction was given by Rev. Harry Purviance of the First Christian Church. The audience stood to the choral response and then remained seated while the seniors left the auditorium in a recessional played by the orchestra entitled "Pomp and Circumstance" by Edgar Elgar.

that the wet street caused the weaving and sliding.

Vandell Dalby, Terry Hotel, charged with being drunk and disturbing the peace at the hotel, forfeited his \$15 bond.

The case of Jerry Heather, of Marshall, charged with being drunk and prowling was changed by City Attorney John C. McCloskey to being drunk in public. Heather pleaded guilty to the reduced charge and was fined \$15.

Three automobiles figured in an accident in front of the driveway to Kinder's Marina. One injury was reported but not serious. This accident occurred about 6:15 o'clock.

Involved was a 1953 Plymouth sedan driven by Daniel Alvin Dupuis, of Whiteman Air Force Base, who was headed south on Highway 65, and had stopped to wait for approaching traffic to pass so he could make a left turn into the driveway.

A second car, a 1963 Cadillac sedan, driven by Joy Pete Arnold, Des Moines, Ia., also headed South had come to a stop to wait for Dupuis to make his turn.

The third car a 1963 Ford sedan driven by Raymond Emil Weller, 31, Route 4, Sedalia, was also headed South. According to Trooper Pete Stohr, Weller failed to stop and struck the rear of the Cadillac knocking it in to the rear of the Dupuis sedan.

Weller received a slight cut over his right eye.

The rear of the Plymouth was damaged, the front and rear of the Cadillac were extensively damaged but driveable, and the front end of the Weller car was extensively damaged. Weller's car had to be towed in and was brought to Sedalia by Salty's DX wrecker.

Weller received a slight cut over his right eye.

Rash

(Continued From Page 1)

the car and boat trailer jack-knifed as the Corvair drove off into a ditch. The boat tore loose from the trailer and went flying through the air over the Stock car missing it completely. The boat swerved around and the motor struck the trunk lid and broke out the rear glass of the car. The boat was not damaged to any great extent.

While working the second accident Trooper Stohr received a call about 4 p.m. on an accident 3.6 miles south of the Sedalia City Limits near the Ball Motor Co., involving three automobiles. Trooper William Southwick of the State Patrol, investigated this accident.

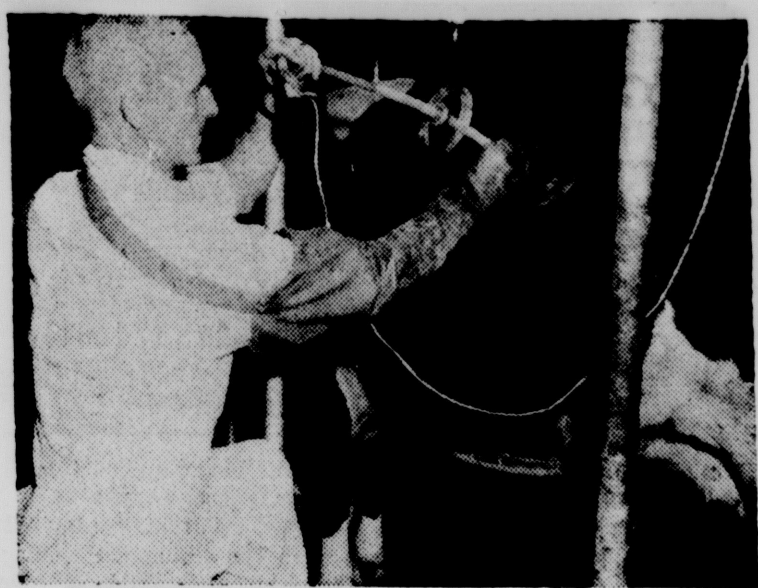

According to the Patrol the lead car a 1963 Ford Falcon station wagon, headed north, driven by William Edwin Rasdale, 40, of Raytown, pulled off to the right shoulder setting off a chain reaction.

The second car, a 1956 Ford hardtop sedan, driven by William Kenneth Schick, 19, Sedalia, apparently went into a skid on the slick pavement when brakes were applied and the Ford struck the Falcon in the left side.

The third car a 1963 Chevrolet hardtop sedan, driven by Raymond Ollison, 39, of Raytown, skidded and struck Schick's car in the right side.

Considerable damage resulted to the three vehicles.

About 5 o'clock approximately two-tenths of a mile south of the Windsor junction an accident involving four automobiles and injury to a ten year old girl occurred.

Experiments to determine how different water temperatures influence cows' digestion are being carried out by the University of Missouri dairy department. Temperatures used range from 34 to 103 degrees.

Merle Cunningham, research assistant, inserts a probe used to measure rumen temperature, through a permanent opening (fistula) in the cow's rumen. Results have shown no detectable difference in effect on digestion, although rumen temperatures vary considerably, depending upon the amount and temperature of the water.

The fistula has no apparent effect on the cow, says Cunningham. He further states that this research is carried out with non-lactating cows, and believes similar research with producing cows could be of value.

Extension Director

Are you going to stake, tie and prune your tomato plants this year? Thousands of gardeners do every year.

They cite these advantages: tomatoes ripen earlier; fruits attain larger size; cleaner fruit — less rotting; easier to spray; easier to harvest.

On the other hand, one must consider the cost of the stakes and the added labor of staking, tying and pruning. There is sometimes more loss of fruit from sunburn, blossom-end rot and cracking of staked tomatoes.

If you plant up to two dozen tomato plants, you will probably find the benefits of staking will justify the added cost and labor. Where space is limited, staking is suggested.

Staked tomatoes should be planted 18 to 24 inches apart in the row, with rows a minimum of 42 inches apart. Numerous types of stakes can be used. Steel rods, 1/2 inch in diameter and 6 to 7 feet long are easy to drive into the soil. They are quite expensive but they last a long time.

Sometimes off-sized 2x2 lumber can be purchased at a nominal cost. This sized stake should be 5 to 6 feet long and taper at one end for easy driving. Either 1x2 or 1x1 inch stakes, 6 to 7 feet long make excellent tomato stakes. If you have access to a wooded area you can cut stakes from sapling trees. These stakes are hard to drive into the soil and do not last more than one or two seasons, but they are inexpensive.

In staking tomatoes, place the point of the stake about 3 to 4 inches to the side of the tomato stem and in the row. Drive the stake into the soil until it is firmly anchored. The stake should be 4 1/2 to 6 feet above the soil line. Stake your tomatoes as soon as convenient after transplanting.

Your next step is pruning. To many gardeners, this is still a complicated process. Actually it is simple. But to the individual who has never pruned before it seems complicated.

Your tomato plants will need pruning about two to three weeks after you set them out. If you want to learn how to prune a tomato plant, may I suggest you take this article out to your tomato patch. Using one of your tomato plants, follow each of the steps listed below.

First, find the main stem of the tomato plant. Now look for and identify the leaflet branches that are attached to the main stem. These are actually the leaves, but the tomato leaf is what we call a compound leaf — each leaf has several leaflets, usually seven to nine. So let's call it a leaflet branch.

Where the leaflet branch attaches to the main stem, there will always appear a shoot. We call this shoot a sucker. If allowed to grow these shoots, or suckers, will form stems with leaflet branches. In pruning, we remove all the suckers. When the sucker is from two to four inches long, grasp it with the thumb and forefinger, pull outward and downward and the sucker will easily

GOOD FARMING

in Pettis County

By MERLE VAUGHAN
Director
and Agricultural Agent

Dates Ahead

Saturday, May 25 — 4-H Barnwarmin', Hughesville High School, 7:30 p.m.

Friday, June 7 — 6:30 to 10:30 p.m., June Dairy Night, Court House Parking Lot, Sedalia.

Machinery Magazine Urges College Attendance
The summer issue of the little magazine put out by one of the farm machinery companies has a picture on the front page of a 4-H boy looking at a college guide that he has just taken from the mail box. His dad is looking over his shoulder.

Certainly a college education is becoming more and more important today. Certainly too astronaut Gordon Cooper's accomplishments this past week emphasize the many new things that we did not know about even a few days ago.

Again we would like to emphasize, too, that if you are interested in agriculture, there are so many job opportunities related to agriculture that it will pay you well to take agricultural training in college.

Plans Made for June Dairy Night

The local June Dairy Night committee is holding their final planning session next Thursday evening, May 23. The ice cream social, with ice cream and cake available at 15 cents a plate, will be held on the court house parking lot. The Missouri Dairy Princess, Ruth Ann Hertzog, will be here as will the float of the American Dairy Association.

A group of dairy wives, headed by Mrs. Walter Kraft of Hughesville and Mrs. Sheldon Smith of Smithton, are planning the receiving, cutting and serving of the cakes. Already 33 cakes have been promised.

The dairy processors of the area are cooperating by furnishing us lists of their dairy customers so that we could ask them for cakes. Also, the two local processors are furnishing ice cream at cost so that we might combine it with the cakes furnished by the dairy wives to sell at the cut-rate price.

Returns on the ice cream supper will be used to pay the expenses of correspondence, for posters and for music that will be playing throughout the evening.

The dairymen themselves are working on a full page ad for the local paper. That ad will cost \$166. To date they have collected \$66 on the basis of \$1 per dairyman. Their deadline is next Thursday, May 23. If you sell some milk and you have not yet been contacted by a dairymen to assist with this advertisement, won't you assist by leaving your dollar and name with a member of the dairy committee or at the University Extension Center?

Eighty-Two Per Cent Wheat Sign-Up
I had the opportunity to visit with Sam Hieronymus, chairman of the County ASCS Committee recently regarding sign-up of small wheat farmers for the wheat referendum.

Sam told me they had 82 per cent of the 1562 small wheat farmers in the county signed up. Only one other county in this area, Henry County, had a larger sign-up with 83 per cent. Apparently sign-up was good over the entire state with an average of 80 per cent. We are assuming

that the majority of the people who went to the trouble of signing up will vote in the referendum May 21. With such a large per cent of the eligible voters planning to participate, when the referendum is over we should have a good idea how the wheat farmers of Missouri feel about a control program.

McClure and Morgan Pasture Winners

Das McClure of Hughesville and Chester Morgan of Windsor are the "Pasture of the Month" winners for Pettis County for the month of May.

McClure had 110 (thousand pound) steers on 135 acres of timothy and ladino while Morgan had 25 steers on 20 acres of orchardgrass and ladino.

The judging committees were enthusiastic about all the pastures seen. Those judging the south side of the county included Carl E. Johnson, Arnold Fischer and Allen Oelrich, while north side judges were Sam Hieronymus and John Ryan.

Other north side participants included J. P. Lamy and T. W. Cloney on the Cloney farm, J. L. Reine, Erwin Smith and Charles E. Snow. Other south side winners were Jack Alrey, Milton Tobaben and Carl E. Johnson.

Rape and Sudan
I stopped at the George Jaeger farm south of Smithton recently to check on some problem alfalfa. While there, Jaeger was pointing out some nice rape pasture for their hogs. He said they had just weaned their pigs and turned them on it.

On the return trip, I saw a real nice field of sudan grass on the farm of Joe W. Davis. Mr. and Mrs. Davis are in the local Balanced Farming Association and Lloyd Lewellen was telling me that Joe had planted his sudan grass in both directions so that he would have a better sod.

Low Moisture Silage
MU Guide 3248 on Low Moisture Silage is now available at the University Extension Center. It includes precautions, feeding value, application for dairy cattle and for beef cattle, harvesting, storage, filling tips and feeding methods.

Low moisture silage is not for the haphazard operator. In spite of what some would lead you to believe, the management applied in harvesting and storing is more important than the silo structure used. Field losses from over wilting, rain damage, or delayed over-maturation harvesting can be excessive.

If you are interested, we will be glad to assist you with plans and we do have this sheet available at the University Extension Center.

Starter Fertilizer for Soybeans
Research indicates that a starter fertilizer is not important in soybeans. Soil treatment should be used on soils quite deficient in plant food nutrients. This treatment is for season long effects but can be made at planting time by banding in the row. While recommendations call for some 250 pounds per acre of a fertilizer such as 5-20-20 or 6-24-24, such an application is not safe when applied with a split boot fertilizer attachment. A band applicator must be used or you must resort to plowdown to keep the fertilizer away from the seed. Phosphates, such as 45 per cent, do not have

a caustic effect on seed and moderate amounts of it or a larger amount of rock phosphate may be used satisfactorily with a split boot attachment.

Soybean Takeover Date Extended

A recent report from the grain market news of the Missouri Department of Agriculture states that farm stored beans, upon written request to the County ASCS, can have takeover date extended until July 31. The report goes on to say that farmer owned beans at public elevators have the takeover time automatically extended with the government paying the additional storage.

Cleaning 2-4-D From Your Field Sprayer

One of the farm organizations has come out with recommendations for cleaning up a field sprayer following 2-4-D or 2,4,5-T usage, so that it can be safely used to apply insecticides to crops. Essentially the steps are: (1) Wash thoroughly with clean water. Next, use water and household detergent. Then use a mixture of washing soda or soda ash at the rate of 2 pounds per 100 gallons of water.

After washing the inside of the tank thoroughly with this solution, running some of it through the pump and hose and making sure the solution gets throughout the system, leave the mixture in the tank for 8 to 12 hours.

As an alternative to the soda you can use one pint of household ammonia per 10 gallons of water. If this material is used it should be left in the sprayer tank for at least 24 hours. Following either treatment, drain out the solution, rinse again with water and household detergent followed by a rinse with clean water.

These instructions will also apply to garden type sprayers. The

amount of ammonia to use with one of those would be three tablespoons per gallon of water.

Time to Top Dress Alfalfa

The best time to top dress alfalfa is immediately after the first cutting has been harvested. If you are going to be particularly busy at that season, you might make arrangements with your fertilizer supplier so that he can bring it out and spread it as soon as your last bale from your first cutting is removed.

The normal recommendation is

THE SEDALIA DEMOCRAT—Sedalia, Mo., Mon., May 20, 1963

5

400 pounds of 0-10-30 per year to replace the plant food taken out by three ton of alfalfa hay. That recommendation is if the field has an adequate supply of phosphate such as by rock phosphate.

If the field has not received rock phosphate in the past and you do not intend to apply it soon, then the recommendation would be 600 pounds of 0-20-20 per acre. Some borax should be included in

MFA SUR-START LEGUME STARTER

"Metered-Feeding" Makes the Difference!

- Thicker Stands!
- Earlier Cultivation!
- Higher Yields!

Your Crop Gets N-P-K in the right amount PLUS These Vital Secondary Elements and Micro-Nutrients:

- | | | |
|-------------|----------|--------------|
| ● Magnesium | ● Copper | ● Molybdenum |
| ● Boron | ● Zinc | ● Sulphur |

It pays to get your crop started right toward a more profitable harvest—and to maintain your soil's fertility! Missouri farmers who have used MFA Sur-Start Legume Starter say, "Here's a fertilizer that works on soybeans."

MFA Sur-Start Legume Starter supplies all the nitrogen, phosphate, potash and other vital elements needed for fast, vigorous, healthy growth. It supplies 100% water-soluble magnesium to prevent chlorophyll-anemia and provides vital micro-nutrients for a strong, healthy crop that starts fast and is ready for earlier cultivation.

Unanimously, the Missouri farmers who have used it, agree it paid them a good return on its cost—and will use MFA Sur-Start Legume Starter in preference to any other starter for future crops.

SEE US RIGHT AWAY FOR YOUR SUPPLY OF MFA SUR-START LEGUME STARTER!

Mountain-Moving Chore

The nation's liberals like to think that they, better than most others, apply history's lessons to the present. But often they seem forgetful of differences between the past and today.

From the moment President Kennedy took office in 1961 many liberals began chiding him for not shoving Congress around or going "over its head" to the people in dramatic appeals for action.

Now liberal journals like the New Republic are after him afresh. Uncomplimentary parallels are drawn between him and such "activist" presidents as Andrew Jackson, Woodrow Wilson, the two Roosevelts. The F.D.R. era of the radio "fireside chats" is of course a great bench mark for liberals.

But are the parallels valid? Earlier presidents, even Franklin Roosevelt, operated in times when major problems, whether foreign or domestic, stood above the horizon like mountain peaks.

Today Americans are drugged and dulled by problems. Soviet soldiers stand in Cuba. Governments totter in Argentina, Syria, Iraq. Communists push hard in Laos. Nuclear test talks wither again. Riots flare in Birmingham. High unemployment lingers in many places.

Not only are the problems numberless, but their shock — if any — is absorbed by a nation whose basic tone is prosperous well-being. Thus again is the impact deadened. To millions, the difficulties do not quite seem real.

Furthermore, the problems develop in the context of a government, an economy and a social structure so massive and glacial that moving any part of these more than inches seems often nearly impossible.

In F.D.R.'s first years, there were some 125 million Americans. His fireside chats were not needed to stir people, but served to reassure them. The people hardly needed arousing, what with 16 million jobless in a 45-million-man work force.

Today's America holds more than 185 million people, and 94 of every 100 employables are working. Most are caught up in family life and personal economic betterment.

Liberals say Kennedy should create commotion and tension to move the big glacier. Yet they admit it has been largely immobile on the domestic front in the 18 years since World War II, and has moved in foreign matters only when war (Korea) or its threat (Cuba) appeared.

The truth is, since the "great engine" of postwar America took shape, no president has known how to spark it to action in the full sense. And in 1960 almost half the nation's voters, opposing Kennedy for president, said in effect that great action is not needed.

In these circumstances no one, liberal or whatever, truly knows what condition short of war would arouse Americans massively today. Liberals guess wildly when they say urgent words from Kennedy would galvanize millions into pulsing effort.

The America of 1963 is a phenomenon no activist president of earlier times ever dreamed of. None tried to move so great a mass. None gained big action when half or more of the country waned inaction.

When Americans again want strong leadership, they will get it. But that guidance will have to be something altogether new—befitting a hugeness thus far not really mastered by anyone at all.

On the Washington Scene

Bill to Keep Federal Judges Honest

By THE WASHINGTON STAFF

Newspaper Enterprise Assn. WASHINGTON — House Judiciary Committee Chairman Emanuel Celler, D-N.Y., observed his 75th birthday May 6 in fitting manner.

After listening to his colleagues pay tribute to his sterling character on the floor of the House, "Manny" Celler quietly dropped into the legislative hopper a bill to help keep federal judges honest.

This newest Celler proposal would make it a felony for any U.S. judge to participate directly in private business. It would not bar a judge from owning stocks. He would not even have to make a public declaration of his holdings.

But for practices like serving as a corporation, bank or insurance company director, or advising a private business firm on the side, a federal judge would be subject to impeachment, a fine of \$5,000 and a year's imprisonment upon conviction.

Celler's idea is that this amendment to Title 28 of the U.S. code really will be welcomed by the judiciary.

Present law goes only so far as to prohibit judges from practicing law while serving on the bench. There has been no legal ban on judges from active participation in private business even though it is not in strict keeping with American Bar Assn. canons of judicial ethics.

No one knows the extent to which this has been done. There are now something over 400 federal judges. They are appointed for life, are well paid, get good pensions and are held in high honor. There is no reason for them to take anything on the side and most of them are above reproach.

In many cases of record federal judges have disqualified themselves from hearing cases involving companies in which they owned stock or in which competitors were litigants. But it is believed there have been just enough violations of principle to warrant tightening present restrictions and maintaining the highest standards of judicial integrity.

Attention was focused on this situation by Joseph Borkin's "The Corrupt Judge," published last

year. The author is an attorney-economist formerly in the Department of Justice Antitrust Division. He made a hobby of research into judicial corruption for 10 years prior to writing his book.

He found 55 cases in which conduct of federal judges has been the subject of congressional investigation. Only eight judges actually were impeached, four being convicted and four acquitted. This is not an alarming record, although one corrupt judge is too many if perfection is expected.

Borkin concludes from his study that the way to prevent such developments would be to create an "office of reports" in each of the 11 judicial circuit councils headed by a senior judge.

Every federal judge would be

required to file an annual report on his net worth, sources of income, business and professional relationships. Failure to file or false statements would be deemed misdemeanors. The reports would not be made public to protect judges from harassment.

Meanwhile, Jerry Landauer of Wall Street Journal has completed a comprehensive survey of business associations of the federal judiciary. His prime case is Judge John C. Knox of the Southern District of New York, who earned over \$100,000 in fees as a life insurance company director in a 13-year period.

It was this disclosure which influenced Celler to introduce his bill banning business associations for federal judges.

The Doctor Says

Trace Elements Do Work In Your Chemical Factory

By Wayne G. Brandstadt, M.D.

What are little boys made of? The question once received a fanciful answer. Today, we are acquiring more accurate knowledge of what elements are necessary to the proper function of the human body.

Some of the most fascinating aspects of this subject have to do with the so-called trace elements—those bits of mineral, present in such small amounts that, until recent years, we didn't even know they were a part of our bodies.

Only with the discovery of delicate and precise means of chemical analysis was the presence in the body of such elements as iodine, copper and zinc revealed.

The average adult body contains about one two-thousandth of an ounce of iodine, most of which is concentrated in the thyroid. But without this minute amount, it would be impossible for the body to maintain a normal metabolic rate.

Iron was recognized as an important constituent of the blood long before anyone realized that copper was just as essential, al-

though in a far smaller amount. Without copper, the bone marrow cannot use the iron that is present to manufacture the hemoglobin needed in the blood to carry oxygen to the tissues. As a result, a form of anemia would develop.

Vitamin B-12 was recognized as a substance the lack of which would cause pernicious anemia. But only recently was it discovered that without cobalt there can be no effective vitamin B-12.

Such discoveries have helped your doctor to sort out different kinds of anemia and to treat each kind with greater assurance of success.

Most of the trace elements are vital links in one of the enzymes that control the indispensable chemical reactions of the body. Zinc, for example is an essential part of an enzyme that permits the red blood cells to carry carbon dioxide, a product of cellular fatigue, to the lungs. This and other chemical reactions in the body that involve carbon dioxide depend on the zinc-containing enzyme. Zinc is also a component of one of the enzymes of digestion found in the intestines.

Manganese is found in one of the enzymes necessary for the kidneys to form urea from ammonia, and thus enables the body to eliminate a waste product which, if allowed to accumulate, would poison us. It is also present in other important enzymes.

Although fluorine is not essential in the body's metabolism, it is present in varying minute amounts in the natural water of most regions. When the concentration is too low, dental decay, especially in children, increases. Fluorine, when present, does not strengthen the teeth directly, but neutralizes the enzymes that are produced by the bacteria in the mouth that would otherwise dissolve the dental enamel.

Like copper, cadmium is found in every part of the body. As yet no one knows what its function is but the fact that it is present throughout the body suggests that it, too, plays a vital role.

The chemists of the future undoubtedly will discover what that role is. When they do, they will have helped your doctor to a better understanding of your body and the forces that help and hinder its normal workings.

HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITOL

Varied Interests Oppose Humane Slaughter Bill

Jewish rabbis, representatives of small packing houses and the poultry industry have banded together to oppose SB 200, dubbed the "humane slaughter" bill. Many from these fields crowded to standing room only the Senate Agriculture Committee hearing on the bill.

The measure, backed by Humane Societies across Missouri, would forbid the use of shackles on an animal before it is rendered insensible to pain prior to its slaughtering.

But members of the Jewish faith told the committee that while one portion of the bill would allow them to continue their ritual of slaughter (by means of an extremely sharp knife) another section in effect declares this practice inhumane because the animal is shackled.

Jewish witnesses urged the committee to amend the bill to exclude any provision affecting their inherent right to worship as they choose.

On the other hand, representatives of small slaughter houses and frozen food packers warned the bill would drive many out of business because of the prohibitive costs involved in changing operations.

Stewart O'Brien, a Festus attorney representing frozen food interests, declared that the small packing industry in Missouri already is a marginal operation at best, with the average net income at \$5,000. Such a bill, he claimed, would prove to be the death of many of these small businesses.

The method of slaughtering, O'Brien said, affects the quality of the meat through bleeding. "You get speckled hams through 'humane' slaughtering," O'Brien said. By speckled meat he referred to blood remaining because of improper drainage.

A representative of a large grain company also appeared before the committee to urge exclusion of the poultry industry. But instead the witness changed his mind and said he was now opposed to the bill in its entirety.

A spokesman for the Missouri Farmers Association joined the opposition, too. He noted that while MFA maintains two large plants using the proposed "humane" slaughter method he feels small dealers should be allowed to continue their present operations.

Although no decision is expected for several weeks, it would appear that the bill stands little chance of leaving the committee in its present form, if at all.

Too Many Measures Facing Legislature?

With the end of the current session of the 72nd General Assembly only weeks away and the chance for many all day and some night meetings very likely, the question arises as to whether too many bills of little value are being introduced.

Sen. James P. Kelly, a Republican from Trenton and chairman of the State GOP Committee, is one legislator who feels this is quite possibly true.

Referring to the heavy backlog of bills, many which won't leave committee, Kelly said, "The preponderance of bills indicates that a great deal of the legislation is inconsequential or else the legislature would pass it."

And there's been some comment around the Capitol that many bills are introduced just because the sponsor wants his name on a bit of legislation to show he's keeping busy.

But, Kelly says, the present situation is very little different than in past sessions "for this time of year."

More State Aid Sought For Fairs

The Senate Agriculture Committee is expected to recommend passage for Senate Bill 234 which would increase by about \$68,000 the amount of state aid available to the various fairs and livestock shows in Missouri.

The bill, sponsored by Sens. Curtis and Spradling would up the amount Missouri reimburses these fairs for premiums from the present 33 and one-third per cent to 50 per cent.

One witness appearing at a recent committee hearing urged favorable action by the legislators and described such fairs as being "woven into the fabric of farm-life in Missouri."

Last year the largest amount of state aid to any fair, excluding the State Fair at Sedalia, was \$7,600 paid to the Ozark Empire Fair at Springfield. Under SB 234 this would be increased to \$11,510.

Senate Perfects Bill Concerning Townships

Sen. Maurice Schechter, D-Creve Coeur, reports he is well pleased with the form his bill has taken concerning the ending of township organization of counties as it was perfected in the Senate.

The perfected bill retains the essence of Schechter's original legislation with a new section providing that the term of office of all township officers expires on the abolition date of the township organization. And the county treasurer would act as collector until a county collector is elected at the general election.

Here are some Highlights and Sidelights of recent action by the Missouri Legislature

NONRESIDENT PUPILS

The House has passed HB 136 relating to the tuition of nonresident high school pupils. The measure provides that the cost of tuition cannot exceed the per pupil cost of maintaining the high school, less a reduction by the additional amount in state aid granted the district operating the school. Included in the bill is the term "debt service" which is the expenditure for retirement of bonded indebtedness. This is figured as part of the per pupil cost.

ELECTRIC LINES

A House Committee Substitute for HB 473 providing that all lines and equipment used in the transmission of electricity, both publicly and privately owned, must conform to the National Electrical Safety Code, has been perfected in the House and placed on the calendar for final passage. The Public Service Commission is authorized to make periodic checks to determine compliance.

PROSECUTORS' SALARIES

Senate Bill 37, sponsored by Sen. Basse Vanlandingham of Columbia, to increase salaries of prosecuting attorneys in certain third and fourth class counties has been perfected by the Senate. Only counties in two population classifications are affected, those between 30,000 and 55,000 and those above 55,000. In the former the salary would be increased by \$1,400 to \$4,600 and in the latter the increase would be from \$5,287 to \$7,500.

BILLBOARD ADVERTISING

The House Committee on Miscellaneous Resolutions has requested passage of HCR 21 which would establish an interim committee to study laws concerning outdoor advertising and determine if any revisions are needed. Earlier this session an attempt to place a limitation on billboard advertising was beaten. This action cost the state several million in federal funds. The resolution urges that a compromise be worked out to preserve the state's beauty while improving this industry.

British Commissioner In Canada to Resign

LONDON (AP) — Viscount Amory, British high commissioner in Canada, is quitting his post in October at the end of his term of office, the government announced Sunday. His successor will be Sir Henry Lintott, 54, deputy undersecretary at the commonwealth relations office.

Lintott played a big part in recent English-Malayan negotiations to finance the future Federation of Malaysia. A civil servant for more than 30 years, he is married and has a son and a daughter.

Matter of Fact

Anagrams, popular with puzzle fans, have occupied the minds of people since the Middle Ages. To make an anagram the letters of a word or a group of words are transposed to produce other words that possess meaning. The transposed word or words should, ideally, bear a logical relation to the original. For example: from "Florence Nightingale" to "Flit on, cheering angel."

© Encyclopaedia Britannica

Guest Editorial

WELLSVILLE (N. Y.) REPORTER: Products Cheaper, Services Costlier. — Two different but related statistics show the trend of costs we can expect for the foreseeable future. Since the 1957-59 period the retail price of refrigerators has declined nine per cent, while in the same period the average cost of a haircut went up 12 per cent.

Automation was responsible for the reduction of costs in refrigerators — but cutting hair still must be done by hand, and it costs more every year. These are not isolated cases. Consumer prices for most other durable goods produced automatically show the same trend.

We don't really expect to see the time our household appliances will be so inexpensive, and our service costs so expensive, that it will pay to throw the appliances away when they break down, rather than have them fixed. But we are headed in that direction.

Suicide Analyzed

"People kill themselves for two reasons. The act is either self-murder, in which the aim is destruction of the 'bad self' in the mistaken fancy that the good self will survive, or a way to escape an intolerable situation," said Dr. Joseph Downing, in speaking before a group at the San Francisco Mental Health Association.

Suicide among relatively young people is increasing in this country. It is estimated that saving three persons from suicide is worth \$100,000 to the local government. If their lives could be saved, they would continue being taxpayers, but dead, their survivors in many cases increase welfare costs.

The psychologists believe that the suicide intention is very brief, except in well planned

Looking Backward

TWENTY-FIVE YEARS AGO

John G. Crawford, Chamber of Commerce secretary, attended a three day conference of the National Farm Chemurgic Council in Omaha, Neb. He will report on his observations at a membership meeting of the Chamber in Hotel Bothwell.

1938

Mrs. Herbert Emo, a nurse at Bothwell Hospital, Mrs. Rudolph Hinck, Cole Camp and Miss Estella Connor, of Jefferson City, attended the nurses' convention in Kansas City. Mrs. Emo and Miss Connor also attended a reunion of the alumni of St. Joseph's hospital training school, and Mrs. Hinck a reunion of the nurses from St. Mary's hospital.

FORTY YEARS AGO

Master Billy Powell, son of Mr. and Mrs. W. H. Powell, Jr., who with his grandmother, Mrs. H. C. Stull and baby sister, Mary, will depart at the close of the school term for Albuquerque, N. M., to join his parents, was the guest of honor at a matinee party given by Mrs. David H. Powell, 111 East Broadway, at the Sedalia Theatre. Guests included: Morine Fox, Jane Kelly, Jerry Jane Hickerson, Jane Rucker, Virginia Dyer, Mary Ann Perdue, Wilson Ferguson, William Rucker, Junior Edmonson, Robert Gouge and George McElroy. Mrs. Powell was assisted in entering by Mrs. Clifford Van Dyne.

instances. Often a person contemplates the act, with the desire to be saved.

How to save a person from suicide is at least being approached by specialists in the mental health field. About all the average citizen can do is to support their work and hope to prevent those persons plagued by the two desires for taking their own lives.

Washington Merry-Go-Round

De Gaulle Relents on Nuclear Force

(Editors' Note: The Washington Merry-Go-Round today is written by Drew Pearson's associate, Jack Anderson.)

By JACK ANDERSON

WASHINGTON — The French have suddenly dropped their stubborn stand against a nuclear NATO force and quietly agreed to assign two squadrons of French planes to such a force.

They will carry nuclear bombs which will remain strictly under American control. The French squadrons will be trained and equipped to drop the bombs. But the actual bombs can be loaded on board only by Americans.

The nuclear force will also include 150 British bombers, three American Polaris submarines, and several fighter planes from other NATO countries. The force will take its orders from General Lyman Lemnitzer, the NATO commander.

This is a big concession for President De Gaulle and could change President Kennedy's aloofness toward him as JFK goes to Europe next month.

Exit Admiral Anderson

Only the Navy brass seemed to notice, as Admiral George Anderson was speaking to the Navy League awards luncheon in San Juan, P.R., that Secretary of the Navy Fred Korth suddenly stood up and walked stiffly out of the room.

The whispers immediately began buzzing through the Navy: was Korth offended by the speech or did he merely go to the men's room?

The Admirals believe they got their answer a few days later when Korth recommended that Anderson be dropped as Chief of Naval operations. This jolted the Admirals who expected Anderson not only to be reappointed but eventually to become the next chairman of the Joint Chiefs of Staff.

They re-read Anderson's speech to find out what might have irritated the Secretary of the Navy. The speech seemed harmless enough, full of noble words about the traditions of the

sea. But it also called for confidence in people and respect by senior officers for their juniors.

To the sensitive civilians of the New Frontier, this could have been interpreted as a subtle slap at Secretary of Defense Robert McNamara. He has been criticized around the Pentagon for not showing proper confidence and respect for his military chiefs.

Anderson has also resisted moves by both McNamara and Korth to bring the Navy under tighter civilian control.

Respect For The Military

In his luncheon speech, Anderson declared: "I do not believe I can possibly overemphasize the importance of having confidence in people. . . we train them, we test them, we drill them, but inevitably there comes a time when we must also trust them."

On the subject of respect, he said: "I think the first principle to which we adhere is that of respect for people. I recall reading many years ago the story of a ship's captain who asked a new ensign what the proper attitude of juniors toward seniors should be.

"The ensign answered promptly, 'Respect, sir.'"

"The captain then asked, 'Now, sir, what is the proper attitude of seniors toward juniors?'"

"The ensign had no ready reply, but the captain supplied it. 'The answer is exactly the same, sir, it is respect. Without respect flowing both ways between juniors and seniors, we have little hope of doing the jobs we will be called upon to do.'"

The Admiral added: "Orders are issued in such a way as to tell a man what to do, but not how to do it. Each man is expected and required to exercise his initiative and responsibility so that the orders are carried out."

Around the Pentagon, some people are still wondering whether these remarks caused Korth to walk out in the middle of the Admiral's speech and contributed to his decision to get rid of Anderson.

1,800,000 Wheat Farmers To Vote on Wheat Controls

CHICAGO (AP)—The nation's estimated 1,800,000 wheat farmers will vote Tuesday on whether they want tighter wheat controls to curb production.

This is the 12th referendum since 1941, when the first such vote was taken.

But it is the first time that farmers who grow wheat on 15 acres or less will vote. Heretofore the voting was restricted to growers of wheat on more than 15 acres.

The under-15-acre group far outnumber the large acreage farmers. Best estimates place the under-15-acre group at 1,200,000 and the large acreage farmers at 600,000.

Thus the future of the Kennedy administration's attempt to control increased wheat production and rising subsidy costs rests with farmers who vote for the first time on controls.

If two-thirds of the voters approve the new controls, they will go into effect next year. If the program is rejected acreage allotments will continue and price supports will be available at about one-half of parity, or around \$1.25 a bushel. There will be no marketing quotas or cash penalties for excess production.

The new program would cut the 1964 wheat acreage to 49.5 million acres.

Wheat would be divided into two price categories. Eighty per cent of the 1964 crop would go for domestic food use and exports and would be supported at \$2 a bushel. The remainder would go for livestock feed and other non food uses and would be supported at \$1.30 a bushel.

A farmer who retired from wheat production a portion of his old allotment would be paid by the government. Any farmers who violated the regulations could be fined and jailed.

The American Farm Bureau and its allied state groups are opposed to the new program. They contend it would bring the "most biding controls ever applied to any commodity" and is much the same as previous programs "that proved ineffective for three decades."

They also claim the program "ignores the function of the market price system, encourages the production of low quality wheat and varieties not in demand by the millers, and makes it necessary to subsidize export sales."

They also say price support support guarantees "are such as to meet the farmer producing for government storage rather than the market."

Favoring the program are the Farmers Union, the National Farmers Organization and the National Grange. They contend, in general, that unless the program is approved farmers' profits will drop heavily and that support prices will be halved.

Farmers have always approved controls in the 11 previous referenda by more than the required two-thirds majority. Last year 67.8 per cent of those voting approved.

The states with the largest num-

ber of farms with more than 15 acres in wheat are North Dakota, Kansas, South Dakota, Colorado, Oklahoma, Texas, Nebraska, Montana, Oregon and Washington.

States with large under-15-acre plantings—in relation to the over-15-acre plantings, include Missouri and Oklahoma.

The administration holds that if farmers reject its program wheat prices will drop, depending on the size of the crop, possibly to \$1 a bushel. This drop could bring lower prices for flour, bread and other bakery items.

The American Farm Bureau Federation says wheat would not drop to \$1 a bushel if the controls were turned down. The federation says prices would adjust to about \$1.45 a bushel and quality wheat would average above that. Low quality wheat would drop to levels cheap enough to use for livestock feed, the federation says, and there would be no overproduction just because acreage restrictions no longer were in force.

Claim Commando Raid

CARACAS, Venezuela (AP)—A commando unit operating from inside Cuba attacked a militia barracks near Havana to mark Cuba's independence day Sunday, an exile spokesman says.

The underground resistance force raised an anti-Castro battle flag before fleeing, spokesman Segundino Alvarez said. An undetermined number of Castro militiamen were reported killed in the predawn raid.

Commencement

An "Around the World" Commencement Party will be sponsored by the parents of the Smith-Cotton High School senior class Thursday night following the commencement exercises at the Jennie Jaynes Stadium. Each senior may bring one guest, either from his own class or non-seniors.

The annual party will be held at Convention Hall and will start at 10 p.m. For a half hour period following the Commencement, parents of the 1963 graduating class are being asked to greet the class at Convention Hall, it being noted a receiving line of all seniors will be formed for this purpose.

The "Around the World" Party will center around a theme of several countries, with various areas of the hall being decorated in motifs depicting the various lands one would encounter on a world cruise. Food indigenous to those lands will be served at various stages throughout the evening. Entertainment of the type given in foreign lands will also be presented.

Two of the highlights of the party, which will conclude at 2 a.m., will be a dance, featuring the Montclairs, a band from Whiteman AFB, as well as valuable door prizes will be given throughout the night. A grand prize will be given at the conclusion of the affair. It is expected that approximately 300 seniors and their guests will attend the function. For those who do not dance, planned recreation and games will be available. Only seniors will be eligible for the

Party Slated For Students

This year's party is under the functional operations of the Smith-Cotton PTA with the parents of the graduating class financing, planning, and chaperoning the gala affair. Mr. and Mrs. William C. Hopkins are general co-chairmen of the party this year.

Cards Lose Game Despite Runs Aplenty

By THE ASSOCIATED PRESS

St. Louis scored plenty of runs but Bob Gibson gave away even more and the Cardinals lost to Cincinnati Sunday 10-6.

Kansas City got enough pitching to remain the fifth member of the five-team American League race.

The A's split a doubleheader Sunday with first place Boston, winning the second contest 9-7 after losing 7-3.

The Reds pounded Gibson (1-3) for four first-inning runs. The Cardinals fought back to tie, but Gibson's error, three walks and two Cincinnati hits produced a five-run sixth that won the game. The Cardinals slammed 15 hits. Dick Groat had four and Curt Flood three.

The defeat was the seventh in the last nine games for St. Louis. Dave Wickersham failed for the A's in the first game as the Red Sox rapped him for nine hits and six runs in four innings. Frank Malzone led the way with four hits, including two homers for five RBI.

In the nightcap the A's overcame a faulty start by Ed Rakow, who also lasted four innings and allowed six runs.

George Alusik, who knocked home two runs in the first game, homered for two more in the second. Ed Charles also hit a homer.

Unbeaten Bill Fisher won his sixth game in relief, although John Wyatt came to his aid.

The split put Kansas City a half game behind the Red Sox although the A's are in fifth place.

Friends Say Davis Knew About Death

CLEVELAND (AP) — Close friends of Ernie Davis believe the football star knew the end was near, although he was cheerful and uncomplaining to the last.

The 23-year-old star died Saturday in Lakeside Hospital, 36 hours after he entered the hospital for treatment of acute leukemia.

Before going to the hospital, Davis stopped to chat with Arthur Modell, president of the Cleveland Browns.

"His neck was swollen considerably and we all knew what it meant," Modell said. "He was coming by to say good-bye to me and the others." But Davis said only that his throat hurt a little, it was nothing serious and that he'd be out of the hospital in a few days.

Davis became a national hero at Syracuse University. He was the only Negro to win the Heisman Trophy, an honor accorded to the nation's outstanding collegiate football player. That award in 1961 and getting to meet and talk to President Kennedy were his greatest treasures.

He signed a three-year contract for \$80,000 with the Cleveland Browns in January, 1962, including a bonus for \$15,000. But the deadly blood disease sent him to a hospital while at the All-Star camp on Aug. 1, and he never got to play a game for the National Football League club.

Three months of treatment temporarily arrested the disease, for about six months. During that period Ernie underwent a conditioning program in hopes that he would be able to play for the Browns.

Coach Paul Brown decided, however, that Davis should not play.

The Browns paid him a salary and all the hospital and medical bills—believed to be about \$10,000.

Funeral services will be conducted in his home town of Elmira, N.Y., Wednesday at 2 p.m., in the Monumental Baptist Church with interment in Woodlawn Cemetery in that city.

Modell said he would not be able to attend the funeral because of an NFL meeting in St. Louis that day, but planned to fly in a chartered airliner to Elmira, with General Manager Harold Sauerbrei, to pay his respects to Davis' mother, Mrs. Arthur Radford, and his grandmother.

Several Cleveland players, including Ernie's close friend, Jim Brown, will be at the funeral.

Modell said he was planning to start an Ernie Davis Foundation for leukemia research and that the club would make a substantial contribution to start the ball rolling.

Davis, born in New Salem, Pa., Dec. 14, 1939, said recently he didn't consider himself unlucky.

KEN TAYLOR WINS FEATURE — At the Thunderbowl Saturday night, Ken Taylor, of Slater, took the "A" Class Feature race and also the "A" Trophy event. The races run on

a damp and slick track didn't bother the driver from Slater at anytime and he rather enjoyed the thrill of handling his car on such an oval. (Photo by Speedy Lewis).

Sorrells Is Driving

Stuck Foot Feed Brings Race Fans to Their Feet

A stuck foot feed on the car driven by Walt Sorrells of Columbia created a havoc for the driver and brought the some 2,000 fans at the Thunderbowl to their feet Saturday night as the car crashed and rolled in the Number one curve. Sorrells was on his time trials when the accident happened, but he emerged unhurt and the car demolished.

Sorrells nit the straight-away with the foot feed wide open and before he realized it was in the number one curve, the car going out of control. It struck the fence and cartwheeled in midair and rolled once, but stayed on the inside of the track. The automobile is the same car in which Kenny Harper of Carrollton was seriously injured in two weeks ago while he was trying it out on his farm.

Harper had just "tuned up" the car and had a pickup truck pushing him when the motor started and the foot feed stuck. The car crashed into a hedge fence, ripping it out, and extensively damaging the vehicle while Harper received fractures of his jaw, numerous cuts and bruises. It is reported he will be hospitalized for two months.

The races at the Thunderbowl saw the track record threatened as Dale McDaniels of Kansas City whirled it in :16.88 just 22 under the record, for the "A" Class. In the "B" Class David Gauldin from Malta Bend, turned the oval in :18.74, which is comparable with some "A" modifieds.

In spite of a slight drizzle which fell early, the crowd remained in the stands and shortly before the "A" feature a heavy downpour lasting only a few minutes caused some of the fans to depart, but trucks and racing cars soon had the track ironed out and the complete program was run off, with thrills galore.

Results: "B" Trophy Dash — (time 1:13.93) Donnie Hurd, Sweet Springs, first; Dave Gauldin, second; Henry Powell, Sedalia, third; Don La Rue, Windsor, fourth. It was Hurd's first trophy dash of the season and was pushed all the way by Gauldin.

"A" Trophy Dash — (Time 1:14.11) Ken Taylor, Slater, first; Jim Jenkins, Slater, second; Floyd Box, Warrensburg, third; and Dale McDaniels, fourth. The damp and slick track didn't bother Taylor as he whirled his vehicle around the oval as if it was dry.

"B" Slow Heat (Time 2:45.45) —Gene Marques, Marshall, first; Cliff Carlson, Green Ridge, second; Bob Robinette, Sedalia, third; Jay Buso, Sedalia, fourth; and Les Hanson, Sedalia, fifth. Marques came from last place through the field of vehicles to win.

"B" Fast Heat (Time 2:34.40) —Gauldin, first; Hurd, second; Powell, third; La Rue, fourth, and Tom Maycock, Sedalia, fifth. Gauldin, a rear field starter, came from behind to win. He had one lap at :18.40, faster than his time trial run.

"A" Slow Heat (Time 2:34.17) —Jim Schlottzauer, Marshall, first; Don Cooper, Sedalia, second; Doug Crank, Sedalia, third;

Faul Places His Opponents In Something of a Trance

By MIKE RATHET
Associated Press Sports Writer

Bill Faul, a 23-year-old Detroit bonus baby who relies on hypnosis but defies superstition, and Boston's wand-waving Frank Malzone are casting a spell over the American League.

Faul, who pitches with the aid of hypnosis yet wears No. 13 on his uniform, had the batters in something of a trance Sunday as he checked Washington on three hits en route to a 5-1 victory in his first major league start.

Malzone, meanwhile, continued to hypnotize the pitchers, bringing his average up to a league leading .356 with six hits, including two homers, and a half dozen runs batted in as first-place Boston held its slim grip on the top spot by splitting a doubleheader with Kansas City.

Malzone, right-handed swinging third baseman hitting at a .462 clip in the last 11 games, drove in five runs with a pair of homers and two singles as the Red Sox won the opener 7-3. The A's turned the tables, 9-7, in the nightcap.

The other teams all split. Baltimore edged Chicago 4-3 before the White Sox won 4-3 in 10 innings and remained in a tie with the Orioles for second place, 911 points behind Boston. The Los Angeles Angels defeated New York 6-2 but the Yankees came back and took the nightcap 10-4.

"He suggested to me to relax out on the mound," Faul explained. "He told me that I could get my breaking pitches over the plate when I was behind the batter even by a 3-0 count. I tried it and it worked."

It worked against the Senators. Ken Retzer's two-out single in the fourth inning was the only hit until the ninth when Jim King and Marv Breeding singled against the former University of Cincinnati star. Al Kaline homered for the Tigers while Bill Bruton tied a major league record when he doubled in his first four times at bat.

Malzone's first game hitting gave Bill Monbouquette all the support he needed to even his record at 4-4 with late relief help from Dick Radatz.

Two-run homers by George Alusik and Ed Charles powered the A's to the nightcap victory despite homers by Boston's Chuck Schilling and Gary Geiger.

Robin Roberts pitched a five-hitter for the Orioles' first game victory and brought his career strikeout total to 2,002—only the 15th major leaguer to reach the 2,000-mark.

Malzone's first game hitting gave Bill Monbouquette all the support he needed to even his record at 4-4 with late relief help from Dick Radatz.

Oklahoma Wins All-sports Title For Third Time

By JIM VAN VALKENBURG
Associated Press Sports Writer

Oklahoma won the Big Eight conference all-sports championship for the 23rd time in 33 years with high finishes in golf, tennis and baseball during the final weekend of spring sports.

The Sooners had 31½ points for the 10 sports, an average of third place in each. Low scores win in the all-sports race.

Colorado edged Kansas for runner-up, 37½ to 39. Oklahoma State's defending champions won golf and tennis for the sixth straight year and climbed into fourth with 43½ points. Nebraska had 44½, Missouri 46, Iowa State 57 and Kansas State 61.

Oklahoma State, which joined the conference in 1958, won the all-sports crown for the 1960-61 school year with Kansas and Oklahoma tied for second, then repeated for 1961-62 with Kansas second.

Oklahoma has never finished below third place in the all-sports standings in the league's 35-year history.

Koufax Powers Dodgers To One Length of Lead

By JIM HACKLEMAN
Associated Press Sports Writer

In a drive triggered and powered by golden-armed Sandy Koufax and sustained by star finisher Ron Perranoski, the Los Angeles Dodgers have left-handed their way to within one length of the lead in the National League race.

Masterful pitching by the two southpaws paced the Dodgers to a doubleheader sweep Sunday over the New York Mets. Koufax fired a two-hitter for a 1-0 triumph in the opener and Perranoski registered seven scoreless innings of relief in winning the second game 4-2 on Frank Howard's two-run homer in the 13th.

The twin victories made it six straight for the Dodgers who had won nine of their last 10 and 11 of 13 in a push that leaves them just one game behind San Francisco's first-place Giants.

The Giants salvaged a doubleheader split with Philadelphia when Felipe Alou homered with one out in the ninth for a 6-5 second game decision. Cal McLish blanked San Francisco 3-0 on five hits in the first game.

Elsewhere in the NL—the Milwaukee Braves coasted to an 8-2 romp over Chicago behind old master Warren Spahn after being edged 3-2 by the Cubs and Dick Ellsworth; Frank Robinson and Jerry Lynch led Cincinnati over St. Louis 10-6; and Bob Friend pitched Pittsburgh to a 5-0 victory over Houston that ended the Pirates' losing string at five games.

Two weeks ago the Dodgers were in seventh place, four games off the pace, and Koufax was sidelined with a sore shoulder. He returned May 7 with a victory over St. Louis that started the 11-for-13 push, no-hit the Giants four nights later, then beat Philadelphia in a 12-inning effort last Wednesday night.

The limber-armed lefty won his fifth straight for a 6-1 record with his job on the Mets and his third shutout lowered his earned run average to an amazing 1.06. Koufax allowed just two singles — to Ron Hunt in the fourth and to losing pitcher Roger Craig in the sixth.

Tommy Davis knocked in the game's only run in the first with a sacrifice fly after a walk to Jim Gilliam and Ron Fairly's single.

Perranoski, also 6-1, replaced Pete Richert in the seventh of the second game and blanked the Mets on four hits in his seven-inning stint. Howard slammed his winning 420-foot homer in the 13th off Ken Mackenzie, following Fairly's leadoff walk and a force out. Al Jackson pitched the first 11 innings for the Mets, allowing nine hits.

Alou won for the Giants when he tagged Ryne Duren with one out in the last of the ninth. The Phils

had drawn even in the top of the inning with Jim Lemon's pinch double driving in the tying run. Bob Bolin won in relief.

McLish handed the Giants their second straight shutout in the opener. Doubles by Tony Taylor, Tony Gonzalez and Don Demeter gave Philadelphia two runs in the first inning against loser Jack Fisher.

Spahn was touched for 11 Cub hits, including Jim Schaffer's homer, but still won his sixth of the year and the 33rd of his marvelous career. Eddie Mathews had a homer and three runs batted in for Milwaukee.

The Cubs racked Lew Burdette for three runs on four hits and a walk in the opening inning of the second game and Ellsworth made the lead stand up. Hank Aaron delivered the Milwaukee runs, clouting his 13th homer with one out in the eighth.

Lynch and Robinson batted in three runs each for the Reds, who clinched it against the Cardinals with a five-run sixth. Joe Nuxhall went all the way for Cincinnati, lasting out a 15-hit St. Louis barrage. Bob Gibson yielded all 10 Cincinnati runs.

Friend had to pitch out of several jams against the Colts, finishing with a nine-hitter. Bill Mazeroski singled in the first Pirate run in the fourth off Dick Farrell and later hit a two-run single.

Buddhist Monks Attempt to Pacify Spirits

HONG KONG (AP) — Buddhist priests and monks performed solemn rites of exorcism Sunday in attempts to pacify what employees claim are spirits that haunt two century-old buildings at Murray Barracks.

Government authorities enlisted the Buddhists' help after employees of the rating and valuation offices at the barracks reported strange incidents.

They said drawings, blueprints and equipment were tampered with when no one was supposed to have been in the building.

The former army barracks was used by the Japanese as a detention center during their World War II occupation of Hong Kong. It is said that some persons were tortured to death and others committed suicide there during the occupation.

Fifty six Buddhist priests and monks walked around the barracks. They calmed scarlet gourd, chanted, and shook wet willow leaves over courtyards and pavements.

RACING IN THE ROAR—The 26 entries in the 15th International Trophy Race roar away from the start at the Silverstone Race Circuit near Silverstone, England. A crowd of 85,000, including Princess Margaret and her husband, Lord Snowdon, saw Scottish farmer Jim Clark win the 152-mile contest at an average of 108.12 m.p.h. in his Lotus-Climax.

Intent Letter Is Approved In Big Eight

MANHATTAN, Kan. (AP) — A six-conference letter of intent agreement for high school athletes in all sports was given formal approval by the Big Eight Conference at its annual spring meeting.

The agreement becomes effective today. Starting today any high school athlete who signs with one school, then jumps to another involved in the agreement loses a year of eligibility.

Forerunner of the six-conference hookup, which includes four major Eastern schools, was the Big Eight-Southwest letter of intent agreement for football only approved in December with a Feb. 12 signing date.

The Atlantic Coast, Big Ten, Southeast, Missouri Valley, Southwest and Big Eight are the six conferences involved. Penn State, Syracuse, West Virginia and Pittsburgh also joined the agreement.

Wayne Duke, executive director elect of the Big Eight, said Saturday the Southwest and Big Eight probably will keep their own earlier signing date for football only. They asked the Missouri Valley to also adopt the earlier

Drum, Bugle Corps Too Much for Cattle

HORNCHURCH, England (AP) — The Hornchurch Drum and Trumpet Corps went for a weekend rehearsal in Peter Read's pasture.

Read's 50 cows lifted their heads with interest as bandmaster Brian Keeler raised his baton for John Philips Sousa's "Semper Fidelis."

The drums crashed out and the horns blared. Five cows dropped dead. The rest stampeded.

Keeler apologized profusely. "They were obviously terrified by the noise," said Read. But he added that he wouldn't sue — "these things happen."

football date, but the Valley deferred action on this point.

No signing cutoff date has been set in the six-conference agreement. Duke said the Big Eight faculty representatives and athletic directors went on record as favoring a cutoff date.

In other major actions, the conference:

1. Set up a formula granting funds to members with games televised nationally or regionally to offset attendance damage. Members will receive one-ninth of TV funds for non-conference games, with one-tenth for each team in conference games. Then the rest of the money will go to the conference office for equal distribution to all eight schools, as in the past. The regular fee is \$286,000 for a national TV game, \$175,000 for regional.
2. Approved gymnastics as a new championship sport, bringing to 11 the number of sports in which titles are awarded. The first conference gymnastics meet

Jumping Frog Wins Through Team Effort

ANGELS CAMP, Calif. (AP) — If Repo could talk instead of croak, he'd thank all who made it all possible and add that it was a real team effort.

Anyway, he's the proudest frog in Calaveras County today.

Repo is the 1963 international frog jump champion after hopping 13 feet 4 inches Sunday in the annual contest that has its origin in Mark Twain's famous short story, "The Celebrated Jumping Frog of Calaveras County."

His story has humble beginnings. He was picked out of a slough in California's San Joaquin Valley by Leonard Hall, former San Jose State College student.

Hall knew a champion when he saw one. He took Repo home and trained him in his stable of jumpers. The stable was an overturned old refrigerator behind his apartment. Repo was fed a special diet of liver and vitamin pills.

Leonard moved on to the real estate business in Walnut Creek with his cousin Merle Hall.

Merle's wife, Carolyn, took Repo to Angels Camp for the annual competition.

Repo is real estate slang for a repossessed home, or one that seems to jump from owner to owner.

Repo's distance — covered in three leaps — fell considerably short of the world's record of 16 feet, 10 inches. If he had bettered that mark it would have been worth \$1,000 to Leonard Hall.

The international class title went to an unnamed frog entered by Ola Oshi of Nigeria. The anony-

Veteran Member Of Star Staff Dies At Age 73

KANSAS CITY (AP) — Elwood Hobbs, 73, newspaperman in Kansas and Missouri 58 years, died of a heart attack Sunday at his home.

Hobbs retired Jan. 1 after 38 years with the Kansas City Star, serving as regional editor for much of that period.

He started in the shop of the Lyons, Kan., Republican at the age of 14, then moved to Eskridge, Kan., and later was a reporter and city editor of the Topeka Daily Capital. He was telegraph editor of the Topeka State Journal seven years before joining the Star's staff in 1925.

A daughter, Miss Mary Hobbs, is church and garden editor of the Star.

Other survivors include his widow, Elma; another daughter, Miss Marjorie Hobbs; two sisters, Miss Kelsie M. Hobbs and Miss Florence Hoyt of Topeka and a brother, Carlos Hobbs, Topeka.

Funeral services will be held Tuesday at the Old Mission Methodist Church.

mous champ jumped 8 feet, 7 inches, but wouldn't get off its rear legs in the grand finale.

Nevada Gov. Grant Sawyer's Paute Pete won the governor's class event with leaps that totaled 6 feet, 5 inches. This beat out Eureka II, which jumped 5 feet, 8 inches for the glory of California and Gov. Edmund Brown.

Australian Faces Stern Opposition

PARIS (AP) — Roy Emerson, the only Australian still in the running for the men's title, faced stern opposition today in the quarter-finals of the French International Tennis Tournament.

Emerson, who was beaten in the finals by countryman Rod Laver last year, goes against Italian veteran Nicola Pietrangeli in the top match today.

Three Australians were eliminated Sunday, including upset victim Robert Hewitt. Hewitt, sixth seeded, lost to 11th seeded Robert Wilson of Great Britain, 5-7, 7-5, 6-2, 6-4. Owen Davidson lost to Manuel Santana of Spain 6-0, 6-4, 6-4, and Alan Lane lost to Pierre Darmon of France, 5-7, 7-5, 6-2, 6-4.

"Mellow as Moonlight"

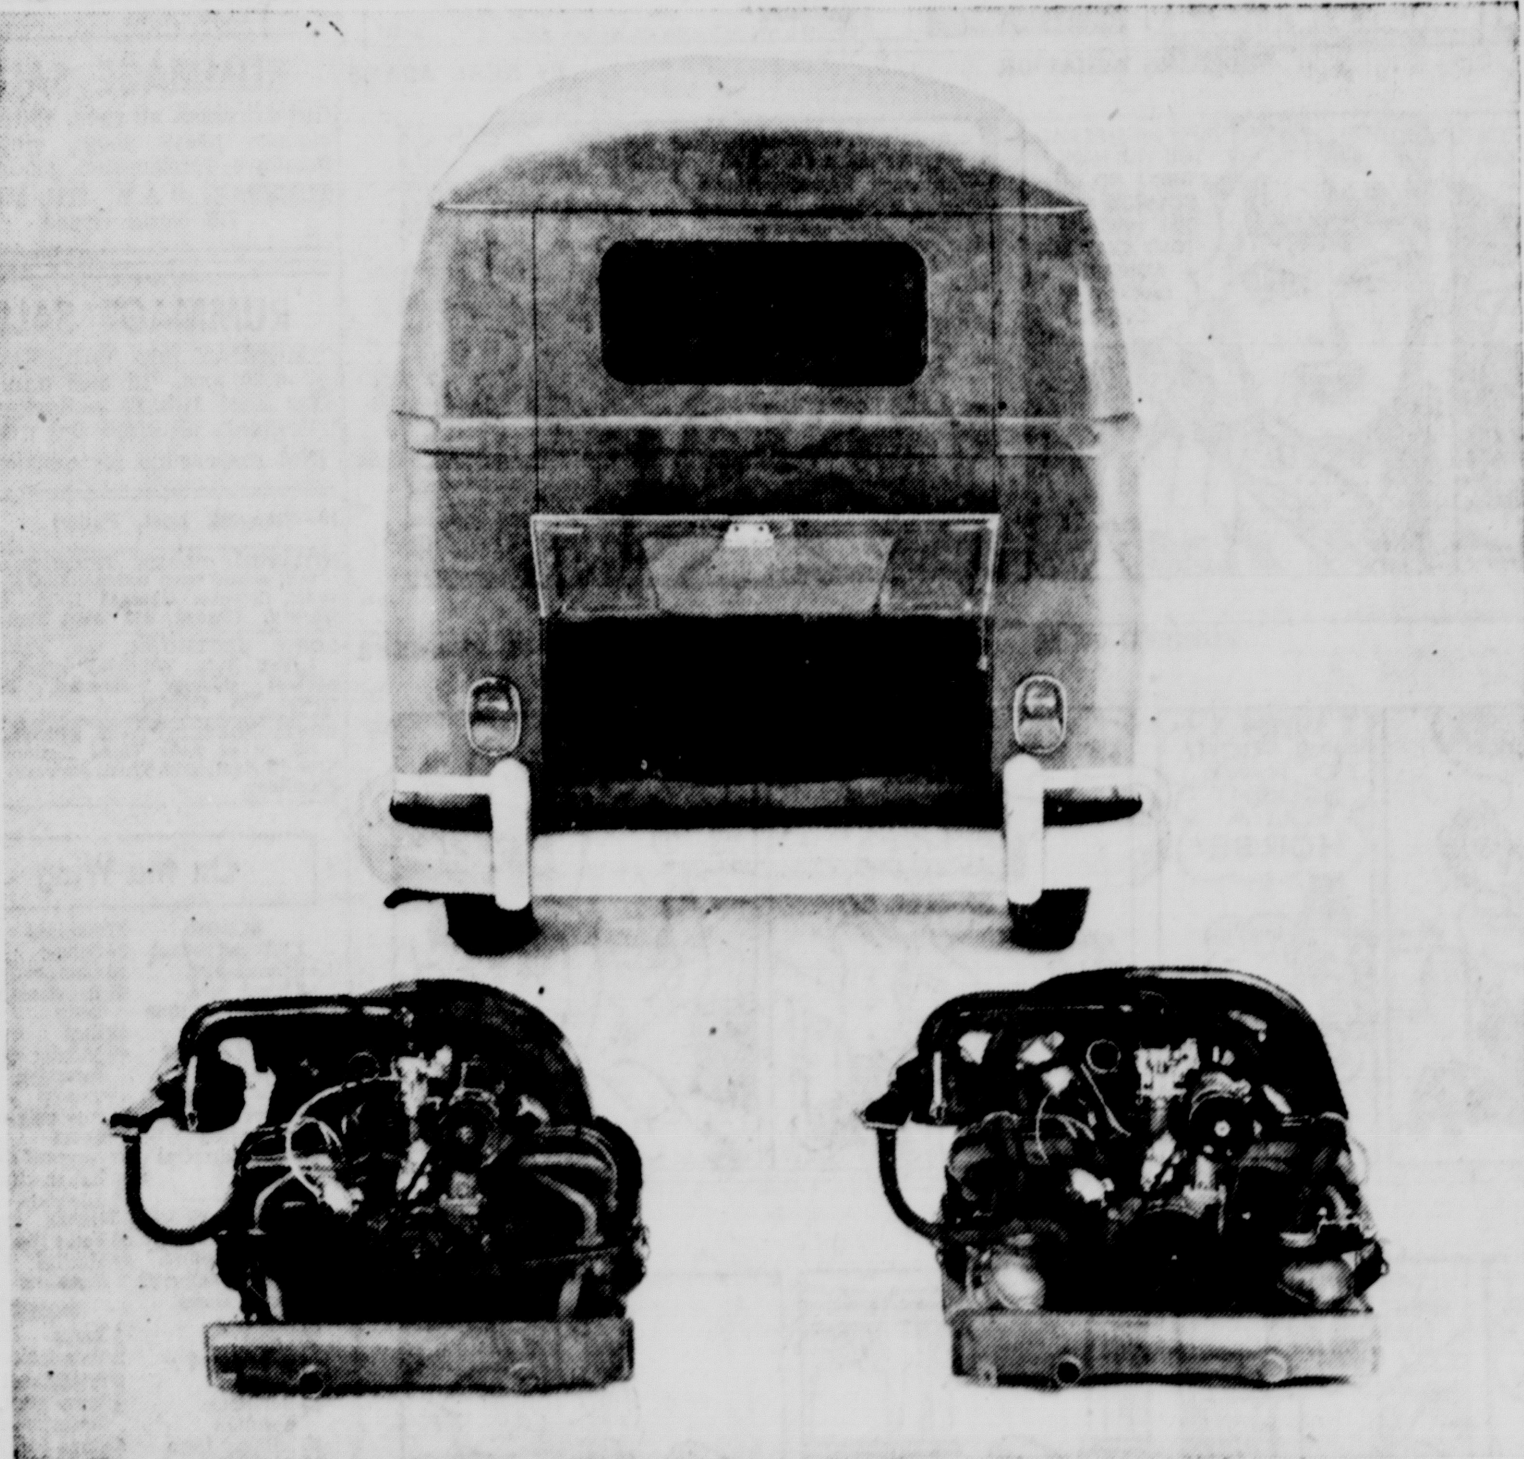

CASCADE

KENTUCKY BOURBON

10 OR 6 YEARS OLD

At 10 years or 6 years old, Cascade brings you extra smoothness and value you find in no other bourbon!

FROM THE LIFE AND VIGOR OF THE GRAIN

Our '63 truck has two (2) engines.

This year you can choose between two engines when you buy a VW Truck.

The one on the left is our standard model. (The legendary engine that made the VW famous.)

The one on the right is our new optional engine. It costs a little more, but then it's more powerful. (And it comes with bigger brakes.)

Say you generally carry a heavy load. Or say you have to do a lot of driving over steep, hilly terrain. Then, you'll probably want to take on our more powerful job.

Do you know some of the advantages in the

Volkswagen power plant?

Both engines, for example, are air cooled. So they can't boil over or freeze up.

Both are short-stroke, low rpm engines. Which means less friction, longer life.

Both do about 24 miles to the gallon and hardly ever need oil between changes.

Both go in back of the VW. Where they give the drive wheels unusually firm traction.

The point is this: No matter which engine you choose, you're still getting the same old VW economy, '63 style.

Three Millionth Auto Off the Assembly Line

By JACK LEFLER
AP Business News Writer

NEW YORK (AP)—A gleaming symbol of prosperity rolled off a Detroit assembly line this past week. It was the 3 millionth car built this year.

The booming automobile industry is leading much of the economy upward.

The heavy demand for cars has spilled benefits into the steel in-

dustry and many other industries. And it has spurred the stock market in an approach toward new all-time highs.

Production of the 3 millionth car put the industry nearly 250,000 ahead of the figure at approximately this time last year.

Output this week slipped to an estimated total of 162,000 cars, compared with 170,620 last week, the highest of the year. A labor

dispute at Ford's Lima, Ohio, plant was partly responsible for the decline.

Sales set a record in the first 10 days of May, totaling 214,900, a two per cent gain over the 211,400 delivered in the like period a year ago.

The inventory situation made the outlook for continued high production good. At the end of April there were 950,000 cars in dealers' hands, a 38-day supply.

Analysts agreed that current business conditions and the outlook are favorable. Among their conclusions:

Finished steel consumption will exceed last year's total, increasing to between 75 and 76 million tons.

Higher sales of industrial equipment and expansion of capital

spending are indicated.

Industrial production, a key barometer, attained a new peak in April for the second consecutive month, the Federal Reserve Board reported.

Based on production of mines, mills and factories, the index climbed to 122.4 per cent of the 1957-59 average from 120.6 in March.

The Labor Department reported that in April nonfarm employment rose 800,000 from March to a record 55.9 million, up 1 million from a year earlier. The gain was described as "a substantially better-than-seasonal job expansion."

Steel production last week made a comeback from the slight decline of the previous week. Output totaled 2,548,000 tons and put industry operation at about 82 per

cent of capacity.

The United Steelworkers Union still hadn't decided whether to reopen its contract for wage negotiations. Union President David J. McDonald described the situation as being up in the air.

Secretary of Labor W. Willard Wirtz expressed the opinion that a railroad strike threatened for June would be averted. The railroads and the unions are in a dispute over work rules changes by

which the lines seek to eliminate ed them to settle it through collective bargaining.

President's emergency board turned the dispute back to the unions and employers and direct-

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dync®)—discovery of a world-famous research institute.

This substance is now available in suppository or ointment form under the name Preparation H®.
